

Manuel's kit of hens that went over 19 and 20 hrs. I believe we just might have some youngsters here in Canada from these ladies.

# Wesley Ferguson

Wesley Ferguson and his outstanding collection of heavy inbred "Billingshams." Well what can I say....true gentleman, made me feel so good knowing he truly wanted to see me, to spend some time together talking birds having lunch and a drink.....and naturally a cup of tea before I left. Top right – exceptionally well put together cock as are the two blue cocks below. Their superb conformation cannot go unnoticed. The same goes for Wesley's hens on the next page.
